On a motion by ______________________________, seconded by ______________________________
the foregoing instrument was passed and approved this _______ day of ____________________, 2020.
Date: February 13, 2020
Applicant: Judy Matetzschk-Campbell
Representative: SAME
Hearing Dates: Planning & Zoning Commission – February 24, 2020
City Council – March 3, 2020
Location: 1130 N. Main St.

APPLICATION SUMMARY
Recommendation of a rezoning of 0.34 acres of land located at 1130 N. Main St. The proposal is to change the zoning from R-1 Single Family District to R-2 Single Family and Garage Apartment District in order to develop a proposed garage apartment.

DEPARTMENT COMMENTS
Presently a single-family home exists on the property. The owner proposes to build a two (2) story accessory building with a garage on the first floor and an 800 square foot apartment on the second floor. These plans have been provided within the packet. Be aware the building plans are being provided as information only and cannot be considered as part of the rezoning request. The applicant has provided pictures as evidence of pre-existing garage apartments within the area. Since the area is zoned R-1 and doesn’t allow garage apartments, these uses could have legally existed under the R-1 zoning category at an earlier point in time and be grandfathered into that zoning category.

STAFF ANALYSIS
In review of the Elgin Comprehensive Plan (see attachment 4) the parcel is located within the Central Elgin Neighborhood Land Use category. Supporting land uses include accessory dwelling units which should be allowed within this category. Also, it acknowledges the form and character of the neighborhood have garages at the rear and side of the homes along with some accessory dwelling units on the properties.

When seeking a rezoning, the Commission/Council should consider the uses that could occur on the land by rezoning to another zoning category. There are no subtracted uses but an addition in permitted uses with the proposed rezoning request as shown in green lettering.
Below is a list of zoning standards for each zoning category, changes are highlighted in yellow between zoning categories:

# These categories reflect the additional proposed use of the property.

Rezoning of this parcel is regarded as spot zoning. Typically spot zoning is viewed unfavorably and case law exists regarding it. In consultation with the City Attorney, there are several findings from the Texas Supreme Court that should be considered when making your decision:

1. Whether the City has disregarded the zoning ordinance or long-range master plans and maps that have been adopted by ordinance;

2. The nature and degree of an adverse impact on surrounding properties; i.e. is the change substantially inconsistent with surrounding properties;

3. Whether the use of the property as presently zoned is suitable or unsuitable; and,

4. Whether the rezoning ordinance bears a substantial relationship to the public health, safety, morals or general welfare or protect and preserve historical and cultural places and areas.

Based on the information within the packet, staff has no issues or concerns regarding the proposal. The Elgin Comprehensive Plan (long-range master plan) is being complied with because the Central Elgin Neighborhood Land Use category indicates accessory dwelling units should be allowed within this category (see attachment 4) and this zoning would allow for the accessory dwelling unit (garage apartment). With the zoning change the only permitted used being added is garage apartments. This should not be an issue since the neighborhood has existing legally non-conforming garage apartments in the area (see attachments 3 & 7). The use of the property is suitable for a garage apartment due to the size and the openness of the parcel (see attachment 1, survey). Also, since the zoning will only allow for garage apartments and they exist within the area (see attachments 3 & 7)

Staff Added Comprehensive Plan Exhibit 4.4
Central Elgin Neighborhoods

General Description: This area includes Elgin’s existing historic neighborhoods surrounding the Main Street area, which are characterized by a variety of housing styles built throughout the decades. This diversity of housing style and character, along with slight variations in lot size give these neighborhoods a unique feel not often found in newer subdivisions. As growth occurs in the area, older homes will likely be renovated and vacant lots will be developed. This should be encouraged provided that new development and renovations are sensitive to the surrounding context by maintaining a similar urban form, character, and neighborhood use.

Transect Zone: General Urban (T4)

Primary Land Use: Single family residential

Supporting Land Uses: Public and semi-public uses such as schools, churches, libraries, parks, and community centers are integrated with residential uses. Neighborhood-scale retail and home occupations are appropriate if the scale and character of the building fits with the surrounding area and negative impacts such as traffic, parking, lighting, and signage are mitigated through appropriate design and buffering. Accessory dwellings (also referred to as granny flats, garage apartments, carriage houses, etc.) should be allowed with appropriate regulations regarding lot coverage, height, and parking. These dwelling types provide an affordable option for renters as well as extra income for the homeowner.

Residential Densities: Approximately 4 units per acre.

Form and Character: The City’s traditional grid street pattern provides the basic foundation for this area’s urban form. As such, the area is very walkable with good connectivity. Homes generally have garages at the rear or side of the home rather than the front. Some existing homes have small accessory dwellings, or “granny flats”, over the garages that provide additional housing options in the neighborhood. Buildings are typically one or two stories tall with ample setbacks and landscaping to create a sense of space and privacy between buildings. Homes in these neighborhoods represent a variety of architectural styles, colors, and building materials. This diversity, along with variations in building and lot size add to the unique character in the area.

Parks and Open Space: Community and neighborhood parks, as well as school playgrounds exist throughout the area and most homes are within the service area of existing park facilities. Vacant lots in the area provide additional opportunities for pocket parks or community gardens.

To the City of Elgin Zoning Commission,

January 1, 2020,

We live at 1132 N Main St, Elgin TX 78621. My house is next door to “Juanita’s House”, 1130 N Main, now owned by Judy M. and FrankCambell. They have talked with us about planning to create a garage apartment on the property. We have no problem with the idea. There is another garage apartment behind us, that has been there for years with no incidents. This structure will be a benefit to the community, offering another available, reasonably priced rental property in Elgin.

Respectfully,
Clay and Debbie Gaston
